

AGRICOLLUS®

THE BEST INNOVATIVE TECHNOLOGIES FOR AGRICULTURE AVAILABLE IN A SINGLE PLATFORM, DESIGNED TO BE EASILY USED BY FARMERS AND PROVIDE THEM WITH A COMPLETE DECISION SUPPORT SYSTEM.

Field Mapping

GIS systems allow to map fields and geolocate all the information

Satellite Imagery

Satellite imagery allows to efficiently monitor crops remotely by computer

Forecast Model

Forecast models provide an efficient support for preventing pest and diseases

Decision Support System – DSS

Decision Support Systems (DSS) suggest to farmers the best actions to be carried out

Sensors

Sensors for agriculture allow to detect very important data on crops health

Precision farming

Precision agriculture allows to carry out targeted crop operations thanks to innovative tools

Participation in national and international calls for proposals and project development

INTEGRATION

Of your solution (hardware or software) within the Agricolus platform-form

OUR PROGRAMS

RESELLER PROGRAM DEDICATED TO COMPANIES THAT OPERATE IN THE AGRICULTURAL SECTOR AND WANT TO OFFER THEIR CUSTOMERS INNOVATIVE TECHNOLOGICAL SOLUTIONS FOR AGRICULTURE.

BECOME AGRICOLUS RESELLER IN 4 SIMPLE STEPS

①

LET'S MEET

To work well it is essential to know each other and understand what is the best way to collaborate together over time.

②

CONTRACT

We write down how we will collaborate, what our goals are, and what our margin rates are.

③

STARTER KIT

A set of tools to help you get to know the product and anticipate your customers' questions

④

START!

With the first sale we will put all aspects into practice and you will become a true Agricolus Reseller

Agricolus is
an innovative startup
that develops solutions for Agriculture 4.0.

Founded in 2017 in Umbria - the "green heart" of Italy - it aims to support farms and professionals in simplifying and enhancing field work, using innovative data collection and analysis technologies.

The company boasts a multidisciplinary team: agronomists working closely with developers, data analysts and GIS technicians, Marketing & Sales team at the service of Agriculture 4.0.
